Dr. Homer Warner
Department of Biophysics
University of Utah
Salt Lake City, Utah

Dear Dr. Warner:

You may recall having offered an invitation to see the time-sharing system that you have installed. While it will not be possible for me to accept this in person, I am very anxious that our group should have the benefit of your experience. and there is some possibility that Mr. Gio Wiederhold, who is the associate director for the medical computation facility here, would be able to make such a visit in the rather near future. I hope you will be agreeable to this, and I am taking the liberty of sending a copy of this letter to Mr. Wiederhold, which he may then follow up with a telephone call to you to find out if and when it would be convenient to you to receive him.

Since Mr. Wiederhold is in fact responsible for organizing the operating detail of our ACME system, I think he will make a very effective liaison.

Sincerely yours,

Joshua Lederberg
Professor of Genetics
